About This Game

Attention:

This is the earliest version. If you want to play the final version of the game, please, don't buy it right away. If you want to help us with the game development, be free to offer your ideas. We appreciate it!

Desert Craft is a futuristic sandbox where you can construct your own vehicle for exploring and getting over large territories! At the beginning of a game you have a regular set of blocks which allows you to create your first car and overcome any obstacles.

Gradually while exploring a map you'll be able to find new blocks.

Currently there are:

- Constructing a vehicle– for now there is a basic car construction for reference.
- Playing area – for now the territory is 2x2 km, there is a vastness of the desert on it including the bunker.
- Initial set of blocks – when you play the game for the first time, you're limited in a diversity of blocks. If you want to have more of them, you have to find drawings of blocks spread all over the area.

In the near future there will be:

-
- Survival mode- you and your friends will have to challenge yourself in a desert with its inhabitants when having only clothes on.
 - Even more kinds of blocks!

Is it anyhow great as the S.T.A.L.K.E.R games? - No.

Is a good game? I've already said that it's S***T

. Great game! i had trouble with the sound working right, but im a die hard dirt racing fan so i got over that real quick! Ai is okay sometimes, career mode youll pretty much win every race by laping everyone once or twice wish there was a little more challenge there but if you like dirt track racing this is the game! Fun game overall, out of the handful of dirt track games ive owned this ones right at the top.. Orange man bad. Diversity is our strength. Dismantle whiteness in America. Destroy right-wing populisms. No human is illegal. Believe all women. The wealthy are evil. Do not listen to right-wing commentators. There should be a universal living wage for those unwilling to work. True socialism has never been tried yet. This is a safe space. The hijab is a symbol of empowerment. Blacks should be taxed at a lower rate than whites. Blacks still suffer from the effects of slavery. Islam is the religion of peace. The Republicans started the KKK. All cops are racist. Abolish ICE. Walls don't work. People don't kill people, guns do. Ban all guns. Ban all planes. Ban cows. Ban people on social media with opposing opinions. Fire people that don't agree with us. Feminism does not apply to conservative women. Attack Trump supporters. The wage gap exists. White privilege exists. Gender dysphoria does not exist. Neither does God. Christians are more violent than Muslims. Undocumented peoples of Latinx descent are not committing crimes when they commit crimes. Gender and sex are different. Gender is a social construct. There are infinite gender identities. Ask what someone's pronouns are before you address them. It is inhumane not to castrate a 3 year old if he says he is a girl. Abortion should be encouraged. Third-trimester abortion should be legal. Babies aren't humans; they're parasites. Your taxes should pay for my breast enhancement surgery. Obama was the best president. Hillary should have won. The world will end in 12 years if we don't address climate change. CNN and MSNBC are credible news sources. FOX News is evil propaganda. Antifa is a peaceful terrorist group. If you disagree with BLM you are racist. Russian collusion happened. The MAGA kid is a symbol of white supremacy. AOC is my queen and conservatives are terrified of her.

Listen here, all of you white trash; racism is the biggest problem in America. Just by being white you are oppressing minorities and benefiting from white privilege. God, white people just need to die out to get rid of racism.

If you disagree with me, you are a mansplaining xenophobic islamophobic homophobic transphobic bigoted white-supremacist white-nationalist racist. Look at my Twitter honey, I've got a blue check mark and a million followers, so yeah, I'm a good person. Check mate, Drumpfard!. Also worth getting !. RS is a game where each colour hazman catches charges up his gun (kinda like match-3). But hit the wrong colour and its back to square one! If you have watched the steam page video, it shows what you are in for. Charming title for sure, if I was to complain. The black slime can make the game feel a little unfair, as hitting you or the ground is game over man. Controls are X,A and pad to move.. Watch Dogs 2: No Compromise ends a season pass that did not shine. For No Compromise, a purchase is only recommended to those who are willing to spend ten euros for another daily mission with Marcus & Co. For those looking for something new to come back and play for the title Ubisoft purchase is not recommended.. Practiced using KovaaK's first watching this video

<https://www.youtube.com/watch?v=e8jjylwABs> After 20 minutes I felt like I was warmed up Hopped on Apex Legends Turns out this REALLY WORKS I don't get that warmed up till I play 10 games Which takes like 2 hours

[TLDR: Buy it. It works... :D. My dark skinned cat girl looks god damn perfect with this. icame/10](#)

The soundtrack is good, but the DLC of it is a rip-off.. After all I have endured and gathered from the initial games this takes them all away and adds a very frustrating prison escape as well. Whats the point of getting artifacts in the last minute after defeating eredar, collecting all the lore books getting 50 mobs in the book when you loose it all and then getting beaten up by tedious thugs just because you have nothing at all. no thanks. The game is a cross between an idle clicker and a text adventure with random things happening with every choice you make. The difference being that this game is done well enough that I highly recommend it.

Average game completion time is around 8 hours.

The music provides a fitting atmosphere for the game.

I was spoiled with another game like this but better overall layout and better graphics.. Amazing pack of DLCs for an amazing game. The new helicopters and different crates work beautifully with the new slingloading system and gives a lot more freedom to mapmakers for insertion/extraction or support during missions. The new weapons and wookie-suits are quite nice too. but the real star in this pack is obviously the go-carts and the very hard but manageable time trials!. So The Gameplay Is Ok I Just Have One Problem With The Game And Thats The Speeking I Mean Haveing A Computer Talker Is Ok But When They Speek Like Its In Another Language I Can Not Stand So Ive Decided Not To Play This Game Anymore For That Reason.

[Update 05/08/17](#) ive not played the game since i made the review im not even sure if its gotten any better i just put it in the trash and left it there sort of speak.
